

FLEXMAR™ NextGen™ Polyaspartic Coatings Offer Exceptional Performance

- Easy To Clean & Maintain
- 0-Voc
- Virtually No Odor
- All Temperature Installation
- 4X More Durable Than Epoxies

- Coatings dry in about an hour and floor surfaces can be used as normal in 1 to 2 hours after application . . . in virtually any temperature and relative humidity range!
- 0 VOC coatings with virtually no odor.
- Resist stains with a tough, hard finish that seals the concrete surface.
- Virtually maintenance free! Sweep or wet mop for a like-new appearance.
- Factory-pigmented colors for superior hide and consistent batch-to-batch color.
- Excellent adhesion to most other concrete coatings and sealers, after proper preparation.

Resinous, Liquid Applied, Seamless Flooring

Resinous

Two-component NextGen polyaspartic coatings systems.

Liquid Applied

Flexmar NextGen polyaspartics are poured and rolled onto the concrete flooring.

Decorative

Vinyl chips are broadcast to rejection into the still-wet polyaspartic base coat.

Seamless

Cracks and seams are filled in and ground to create a seamless surface.

If it isn't FLEXMAR™, it's just another coating.

Your FLEXMAR™-Qualified Applicator:

FLEXMAR™ polyaspartic coatings and sealers contribute toward satisfying credits in the Indoor Environmental Quality and Materials and Resources categories under LEED.*

Durable, Long-Lasting, Easy-to-Maintain Coatings for Your Home's Concrete Surfaces

FLEXMAR™ NextGen™ polyaspartic coatings lead the concrete coatings industry by outperforming and outlasting other polyaspartics, epoxies, and polyurethanes. They're rugged enough to withstand abrasion, scratching, and wear from heavy foot and vehicle traffic, and staining and degradation from most household foods and chemicals. But they're beautiful enough to provide a bright, clean, revitalized appearance to your home.

Impervious to Chemicals

Scratch Resistant

Chip Resistant

Color Won't Fade or Yellow

Rapid Cure, 0 VOC, Virtually No Odor

We manufacture our own coatings, so we make it simple to have your concrete surfaces beautified and protected with minimal disruption, minimal inconvenience. That's the revolutionary power of FLEXMAR™ NextGen™ polyaspartic coatings. Here's how our coatings can minimize any disruption to your daily routine or inconvenience during the application:

Our coatings dry within an hour, and floor surfaces can be used like normal within an hour or two after the coatings system is applied.

Our coatings are all 0 VOC so they won't harm the environment . . . or you and your family.

Our coatings have virtually no odor so you won't have to breathe in overpowering fumes (or relocate to avoid them) during the application process.

A Wide Variety of Vinyl Chip Blends to Achieve the Perfect Look for Your Home
